

PERTH INTEGRATED HEALTH LOOKING AFTER THE GENESYS PRO TEAM

Sam Davis, Anthony Giacoppo , Alex Carver & Pat Shaw

The Genesys Pro Team here for the Perth Criterium have also been receiving their clinical recovery and conditioning from the team of practitioners at Perth Integrated Health.

From neuromuscular care, to sports massage, podiatry, exercise physiology and muscle conditioning as well as the use of Rocktape these elite sportsmen have received probably one of the best clinical supports of any of the teams for this Criterium.

The results speak for themselves and we are very excited about their achievements not only in Perth but with the racing season domestically and internationally in the weeks and months to come.

Perth Integrated Health is also proud to announce our 2012 clinical sponsorship program for elite sports people now including the National Road Series Champion Anthony Giacoppo and the Victoria Park Criterium Champion Sam Davies.

On the last night of the Perth Criterium, the Genesys Pro Team were also invited to our synergy partner Burger Edge as part of the PIHCG private function to celebrate the win of their team in this year's event. The celebrations were also for the 1st and 3rd positions won by the National Road Series Champion Anthony (AJ) Giacoppo and Alex Carver
