## GENESYS PRO CYCLING TEAM @ PERTH INTEGRATED HEALTH

The Genesys Pro Cycling Team in town for the Perth Criterium races graced us with their presence at our Northern Districts Centre in Balcatta on the 15 Feb 2011.

Fresh from their team successes at the Perth Criterium series for 2011, the Genesys team comprising of Patrick Shaw, Nathan Haas, Steele Von Hoff, Nathan Earle and their Manager –Coach Andrew Christie-Johnson attend our clinic today for a much needed neuromuscular and biomechanical tune up by our Perth Integrated Health practitioners.

Practitioners Inez Ngiau, Julian Mancini, Lucy Liongue, Jill Hunter & Ian Wee were at hand to provide the clinical assistance specially to the team during their lunch break.

Huber Dynamic Systems with Julian Mancini, Ex Physiologist.

The Pro Team undertook the full spectrum of our Neuromuscular services as part of their reconditioning program which included the Thermal EMG Scan, use of the Huber Dynamic systems for balance and coordination (see above), neuromuscular hands on treatment, sports massage therapy as well as the use of our high tech Key Module systems for tendon, muscle and joint regeneration.

The Pro cyclists were also treated with Rocktape to assist with their muscle and tendon recovery after the gruelling three days of the Criterium and are looking forward to their next pro tour within the next month at the Tour of Malaysia.
